Join Us in an International Nursing Seminar Having been Held Annually for Five Years

2018 Sixth Beijing International Training Seminar & Field Study of Traditional Chinese Medicine(TCM)Nursing Care

--TCM Transcultural Nursing Care

May 31-June 1, 2018

Invitation

You are cordially invited to Beijing on May 31-June 1, 2018 for the 6th International Training Seminar & Field Study of TCM and Nursing Care co-sponsored by Beijing TCM International Exchange & Cooperation Center and Guang'anmen Hospital of China Academy of Chinese Medical Sciences.

As the suggestions we have received from previous participants, the theme of this seminar will be very broad on "TCM Transcultural Nursing Care", connecting with nursing care, TCM nursing care and integrated nursing care. All papers, research projects and nursing procedures about transcultural nursing care to be presented and discussed at this seminar. We aim at providing a transcultural platform for practical academic exchange to promote nursing quality and improve nursing skills, in order to provide more options for patients through sharing experiences, introducing new nursing therapies, and cooperating in nursing researches.

You will spend nearly two days with over a hundred exciting line-up of local nurses, who will share their experiences in transcultural nursing care. One of them will be a moderator to lead lively, motivational, and interactive discussions on nursing therapies, research advancements, practice, and regulations in traditional medicine. Through presentations, round-table discussions, participants will be immersed in an interactive and in depth communication on nursing new technology, research advancement, practice and regulations in nursing care and TCM nursing care, and at the same time, they will have an unforgettable TCM nursing tour of hospitals where specific TCM nursing care are performed everyday.

Let us meet together at Beijing Guang'anmen Hospital, China Academy of Chinese Medical Sciences, the top research institute in China where Prof. Tu Youyou, China's first Nobel Prize laureate in medicine is currently working.

Go beyond textbooks and be inspired by TCM nursing, which has been practices daily for over half century in the

What makes the hospital special:

Founded in 1955 and affiliated to China Academy of Chinese Medical Sciences, the only national institution of TCM and directly under the leadership of State Administration of TCM(SATCM), Guang'anmen Hospital has been highly recognized as a leader in TCM for patient care, education and research. Today, it is known for its continuous contribution to the whole medical system in China and has built a reputation for excellence in integrative medicine unsurpassed by any health care institution.

- ❖ The first TCM hospital in Beijing with direct billing settlement with Cigna
- ❖ Bupa accredited TCM services of excellence
- ❖ Official TCM hospital for 2008 Beijing Olympic Games
- ❖ The greatest number of research papers published in SCI Journal among all TCM hospitals
- ❖ The only TCM hospital for the central government's healthcare
- ❖ TCM International cooperation center of SATCM
- ❖ SFDA drug clinical trial center
- ❖ The greatest number of national research projects on TCM from policy making to implementation of regulations and technical standards
- ❖ MOH training center of TCM for bio-medically trained doctors
- ❖ Pioneer in government's project of TCM integrated into community healthcare services

Tour information:

You are invited on a special tour of TCM tertiary hospital. Our Chinese colleagues will show you around introducing TCM nursing care and ward-round, common TCM nursing modalities and more.

Co-host:

Beijing Traditional Chinese Medicine International Exchange & Cooperation Center (BTCMIECC) was founded in 2001 with the purpose of carrying out international exchanges for the Beijing Administration of TCM. As the only officially authorized agency, BTCMIECC accurately collects and coordinates medical, teaching and research resources in Beijing, strives to become an authoritative and trusted platform for TCM international exchange and trade in services.

During the past few years, it has successfully organized several high-level international symposiums on academic research, public health management, education as well as cutting-edge TCM techniques for professionals from 14 countries and regions. Its exhibition images of Traditional Chinese Medicine: History and Culture (English and French versions) have been collected by The 29th Olympic Games organizing committee. Its launching website of Beijing TCM Digital Museum has won the 2011 World Summit Award.
