CONTRATACION DE PROFESORADO DE ESPAÑOL EN FRANCIA

La administración educativa francesa está dividida en entidades territoriales denominadas Académies que gestionan, entre otros asuntos, la contratación de personal docente. En algunas de ellas se pide que el candidato mande una serie de documentos (CV, carta de motivación, títulos, etc.) a una determinada dirección postal o un email de contacto; en otras, sin embargo, se solicita que el candidato se dé de alta en una aplicación gestionada por la propia Académie en la que se le solicitarán los datos necesarios.

➤ HOLANDA:

enfermeros

Breve descripción de la empresa European Multi Talent Group Health Care BV es una empresa holandesa activa en el sector de la sanidad Holandesa para empleo especializados en sanidad: enfermeros, especialistas y generalistas para hospitales y residencias de ancianos (Sistema Público de Salud). Para poder trabajar en Holanda en el sector de la sanidad se necesita comunicarse en Holandes. Por esa razón tenemos una escuela en la Costa Blanca donde aprender el Neerlandes en 3 meses. Después del período de aprendizaje de idioma de tres meses los participantes empezarían a trabajar en Holanda en el sector de la sanidad. Nuestros clientes son hospitales, residencias y centros geriátricos de salud. Tenemos cuatro agentes en los países donde reclutamos. Estos agentes dan información sobre nuestro concepto. En la escuela tenemos a cuatro profesores de Neerlandés, en Holanda tenemos a cuatro supervisores y dos profesores guiando a los enfermeros en la cultura holandesa y en la oficina en Holanda tenemos seis personas para la administración, comunicación, coordinación y gerencia. <http://bit.ly/2NV1U36>

Design Engineer

at in-Context, is to contribute with your knowledge and experience to our customers' projects in the automotive industries, providing solutions within the different phases of product development. •You will be part of new development projects where visible design areas, shape and function play an important part. •You will design in various materials, primarily sheet metal, plastic and castings. •As you will be communicating on a regular basis with various groups, suppliers, purchasing etc, it is imperative that you are communicative and structured. To be a successful candidate for this role, you most likely have a Bachelor's or Master's degree in Mechanical Engineering or Electrical Engineering, or equivalent, and preferably a few years of relevant work experience of mechanical design within the automotive industry.

<http://bit.ly/2GnrEUt>

Electrical Engineer

you will have responsibility to manage a specific area within an electrical system for a vehicle, for example Wire Harness Design or Component ownership – depending on your own interest and passion. Wire Harness Design and Electrical Components are two areas that play a very important part in the development of a vehicle. As a Wire Harness Engineer or Component Owner, you will be responsible for the following areas: •Document and specify the wiring and harness' installation in 3D, in CATIA V5, in a very complex surrounding where focus is on demands and specifications to the components where the wiring is reached. •Regular communication and dialogue with suppliers, purchasing, customers and other groups internally with the client. •Updates and documentation of criteria specifications. <http://bit.ly/2BI5wa5>

Embedded SW Engineer,

your key responsibilities are: •Develop and establish physical models in Simulink •Manage virtual tests of Simulink models, and other tests such as on desk, in cell and on the vehicle •Generate code from Simulink and implement the code in ECU's •Calibration and maintenance •Define and document requirement specifications To be a successful candidate for this role you most likely have a Master's degree in Mechatronic Engineering, or equivalent. Previous experience of Simulink and C

programming is a requirement. As this assignment is for our customer in the automotive industry, it is vital that you have a genuine interest of vehicles, and the automotive industry in general. You are fluent in both Swedish and English, written and spoken. Due to the nature of the work and type of industry, previous experience of ECU's is an advantage, and to hold a C driver license is a merit but not a requirement. <http://bit.ly/2GI3gmx>

Junior Design Engineers

who are eager to display their interest and knowledge in a practical setting, where you will be given a solid platform and foundation on which you can develop and nurture your future career, based on your interest, drive and passion. You will get the support and introduction that you need in order to develop technically in the assignment. Initially, you will go through our onboarding process, where experienced in-Context consultants will guide you and provide you with the training and tools you need for a specific group and role, for example, CATIA, Enovia or our client's own systems. <http://bit.ly/2UIFRZj>

AYUDAS EURES A LA MOVILIDAD

Your First EURES Job y Reactivate

Si una empresa te ha propuesto ser entrevistad@ y/o contratarte para trabajar en otro país europeo, por una duración igual o superior a seis meses, EURES puede ayudarte con los gastos de desplazamiento y de integración.
