

PROJECT DESCRIPTION

Aim

Through this project, we aim to develop students' and their teachers' creativity and entrepreneurial competences via suited educational activities. Thus we propose the following specific objectives:

Objectives

1. As a core required competence of entrepreneurship and leadership competences, **creativity will be a central capacity**, at any opportunity to be promoted and stimulated.
2. Schools will be encouraged to place greater importance on **entrepreneurship education and on organizing entrepreneurship activities** to motivate young people to develop their potential.
3. Students' development of entrepreneurship competences will be directly promoted through **creative and innovative activities** to be experienced during Intensive Programs (IP).
4. IP programs will be designed as the **optimum settings** for achieving such embedment through a multi-cultural and multi-disciplinary curricular approach, summoning various partners from different subject-areas.

EXPECTED RESULTS OF THE PROJECT

- Presenting **essentials** of creativity, innovation and entrepreneurship
- **Building** school leadership skills based on entrepreneurship and creativity
- **Understanding** the progressive model for entrepreneurship education in initial teacher education
- **Understanding** active learning methods in entrepreneurship education in lectures
